

PRODUCT COMPARISON MATRIX

		Availability:							Effects:						
Product Name and Composition	Product Description	Bulk	20kg Bag	22.6kg Bag	25kg Bag	40kg Bag	Supply & Spread	Bulk Sack	Benefits	Effective To:	Corrosion	Environment	Vegetation	Skin Irritation	Residue
Salt (Sodium Chloride – NaCl)	Sodium Chloride, also known as rock salt, is the least expensive and most commonly used de-icing product.	✓	✓			✓	✓	✓	<ul style="list-style-type: none"> Least expensive de-icer Readily available Easy to spread Relatively harmless to skin and clothing 	-9 °C to -12 °C	Moderate	Moderate	Moderate	In high concentrations	Yes
Clearlane® Enhanced De-icer	Salt that is treated with a liquid composed of Magnesium & agricultural by-products.	✓					✓	✓	<ul style="list-style-type: none"> Less harmful than Sodium Chloride Cost effective Less product required Reacts faster than untreated salt Less corrosive 	-22 °C	Low	Low	Low	Moderate	Yes
Landscaper's Choice® Ice Melter with Calcium Magnesium Acetate (CMA)	A biodegradable ice melter combined with Calcium Magnesium Acetate (CMA); performs as well as the chlorides.			✓				✓	<ul style="list-style-type: none"> Less harmful than Sodium Chloride Biodegradable "Green Melt" allows cost effective dispersion Quick action Harmless to skin 	-22 °C	Low	Low	Low	Moderate	None
Winter Sand & Salt Mix	A 75%/25% mix of sand and salt used for traction on thick, icy surfaces or snow-covered roadways. Small amounts of salt are mixed with sand to keep it from freezing.	✓					✓		<ul style="list-style-type: none"> Very cost effective Readily available Improves traction Reduced corrosive properties 	Down to -10 °C	Low	Low	Low	Low	Low
Calcium Chloride Flakes	Calcium Chloride with 16-20% water hydration.		✓						<ul style="list-style-type: none"> Less harmful than Sodium Chloride Reduced corrosive properties Quick action Leaves no residue 	Down to -25 °C	Moderate	Low	Moderate	High	No
Urea – Pellets	Traditionally used as a fertilizer, urea is also a relatively good de-icer and is widely used because of its non-corrosive properties.				✓				<ul style="list-style-type: none"> Environmentally safe Non-corrosive Doubles as fertilizer 	-4 °C to -10 °C	None	None	Excessive use can cause vegetation burn	None	Moderate
Magnesium Chloride Flakes	Large, flat, clear to off-white flakes containing over 51% water.			✓					<ul style="list-style-type: none"> Less harmful than Sodium Chloride Reduced corrosive properties Quick action 	-15 °C to -30 °C	Low-Moderate	Low	Correct use will not harm vegetation	Moderate	Yes
Meltco Premium De-Icer	Green pelletized granules enhanced with CMA and MCl ₃ .			✓					<ul style="list-style-type: none"> 100% natural eco-friendly formulation Enhanced with MCl₃ for safe and optimum performance Child and pet friendly Minimizes corrosion 	Down to -25 °C	Low	Low	Low	Low	Low
Meltco Treated De-Icer	Blue pelletized granules enhanced with MCl ₃ .			✓					<ul style="list-style-type: none"> Treated with MCl₃ Enhanced with anti-corrosion inhibitors Non-caking & non-tracking 	Down to -15 °C	Low	Low	Low	Low	Low
Jet Blue Ice Fighter	Blue pelletized granules.		✓						<ul style="list-style-type: none"> Contains x-35 Corrosion Inhibitor Faster, long-lasting ice melting capability Pet-friendly 	Down to -30 °C	Low	Low	Low	Low	Low
Ice Shield™ Premium Ice Melter with CMA	Light green pelletized granules combined with CMA.		✓						<ul style="list-style-type: none"> Low corrosive Ideal for high-end clientele 	Down to -30 °C	Low	Moderate	Moderate	Low	Low
Contractor's Choice Commercial Ice Melter	Green pelletized granules.			✓					<ul style="list-style-type: none"> Ideal for high-end clientele Low corrosive 	Down to -30 °C	Low	Low	Low	Low	Low
EcoSALT	An eco-friendly de-icing product, rown in colour.			✓					<ul style="list-style-type: none"> Sugar beet additive Eco-friendly 	Down to -30 °C	Moderate	Moderate	Moderate	Low	Low
geoSALT	A cost-effective de-icing product, white in colour.			✓					<ul style="list-style-type: none"> Less corrosive than rock salt 	Down to -21 °C	Moderate	Moderate	Moderate	Low	Low
